

1 SHELF EDGE SOLUTIONS

Bruegmann Group is a leader in the manufacture of Shelf Edge Solutions. These are products that convey the most important information to customers where they see it first—at the shelf edge, directly above or below the product. Our Infostrip and Label Holder lines are designed to last, easy to customize, and simple to use. If we don't already have a solution, give us a call and we'll create exactly what you need.
